WHAT HAPPENS AT A MAMMOGRAM

Knowing what to expect can make taking that first step feel a little easier.

YOU'LL BE GUIDED THROUGH IT

When you arrive, a trained professional will talk you through the process and guide you throughout your appointment. You'll have the chance to ask any questions and know what to expect before your mammogram begins.

THE IMAGES ARE TAKEN

Your breast will be positioned on the mammogram machine and gently compressed for a few seconds while X-ray images are taken. Images are usually taken from different angles to give a clear view of the breast tissue.

MAMMO COMPLETE

Once your mammogram is complete, you'll be able to get dressed and continue with your day. Your images will then be reviewed, and you'll be told how and when you can expect to receive your results.

AFTER YOUR MAMMO

The time it takes to receive your results can vary, so make sure you know what timeframe to expect. If you haven't heard anything after that, don't be afraid to follow up and ask for an update.
